WEI Dedication meets innovation.

aws PARTNER
Select Tier Services

WEI Cloud Services: AWS

Our focus begins with you. As an AWS Select Tier Services Partner, WEI works with its customers to gain a deeper understanding of what your biggest challenges are so we can develop a complete cloud solution. WEI works closely with customers to better identify what the biggest challenges are so we can develop a complete cloud solution. With help from WEI, AWS allows your enterprise to focus on the development, maintenance, and delivery of the best cloud technologies in the world. We are here to advise, implement, and manage a unified view of the customer focused on maximizing business outcomes that deepen brand loyalty and increase lifetime value.

WEI At A Glance

- AWS Select Tier Services Partner. Our trained and certified experts are well-versed in customer experience.
- 30-year track record of putting our customer's needs first.
- We hire the most qualified engineers in the industry and empower them with the freedom to create best-in-class business solutions.
- Three-time CRN Triple Crown Award winner.

Starting Your Cloud Journey With WEI and AWS

Work with WEI during a kickoff assessment to go over current state and future. WEI will create a current report of your cloud environment and develop a roadmap of your cloud consumption future.

- Review critical best practices, issues
- Identify any costs or unused capacity
- On-prem to cloud data migrations

AWS FinOps Framework

Enterprises everywhere are experiencing changes in financial, operational, and cost management practices. As your organization continues its digital transformation, WEI recognizes the importance of bringing financial, IT, and DevOps leadership together to monitor and fine tune these practices in the long term. WEI will assure that AWS provides a strong and consistent focus on cost and financial management through its various accelerators, programs and tools ecosystem.

HOW YOUR CLOUD STACK FITS TOGETHER

- **Infrastructure As Code (IaC)**
  - Terraform
  - Ansible
  - Cloud Formation
  - Cloud Development Kit (CDK)

- **Continuous Integration (CI)**
  - Continuous Development (CD in AWS

- **Modernization**
  - Containerization
  - EKS
  - ECS
  - Kubernetes
    > RedHat Open Shift, VMware Tanzu

- **Global Infrastructure**
  - Simple Virtual Instances
  - Kubernetes
  - PC/Networks
  - Licensing Structures

WEI's AWS Well-Architected Review Framework

- **Operational Excellence:** Optimization and monitoring of systems for continuous improvement of the value chain.

- **Security:** Measures for safeguarding confidentiality and data integrity to avert security breaches.

- **Reliability:** Error notification and prompt, automated restoration of systems in the event of an outage and ensure high reliability.

- **Performance Efficiency:** Optimal usage of AWS resources, including fluctuating demand and various system requirements and technologies.

- **Cost Optimization:** Conduct an extensive analysis and adaptation of resources to avoid/ reduce unnecessary costs.

- **Sustainability:** Evaluating your workloads to reduce their energy consumption and improve their efficiency.

WEI can work with you to do well architected reviews for your AWS Workloads.

Notable AWS Certifications

- Associate
  - AWS Solutions Architect
  - AWS Developer Associate
  - AWS SysOps Administrator

- Specialty
  - AWS Advanced Networking Security
  - AWS Certified Security

- Professional
  - AWS DevOps Engineer

Top AWS Verticals

- Financial
- Healthcare
- Energy
- Manufacturing
- Retail
- Bio/Pharma

WHAT MAKES OUR SERVICES UNIQUE?

AWS will provide compute storage, networking in the cloud, open ended architecture to run your workloads. Right-sizing your networks is critical and it starts with building your infrastructure from the ground up.

AWS Cloud Services Offered

- Migrations
- Identity and Access Management
- Backups
- Disaster Recovery
- Connectivity
- Architecture Review & Design
- Deployment Services
- Infrastructure as Code/Configuration Management
- Modern End User Computing

WEI Integrates All Mission-Critical Technologies

- Apps Anywhere
- Cloud Management Platforms
- End User Computing
- End Points In Cloud
- Lifecycle Management
- Network & Security
- Mobile Device Management
- Performance & Cost Analytics

Talk To WEI Today

When you work with WEI, you get more than an innovative solution. You get a team of dedicated strategic partners and advisors who stay connected to ensure your long-term satisfaction and success.
