

## **END USER DEVICES —MADE TO ORDER. FULLY DEPLOYABLE. IT'S THAT EASY.**

### **CUSTOM IMAGING & SCRIPTING**

WEI's engineering expertise is put to work to make your life easier. This includes loading custom images for workstations and portable products—so you don't have to. Aren't you tired of you and your technical staff being bogged down with end user deployments and refreshes? Such time spent means less time for innovation.

Why not offload this cumbersome task to WEI? WEI offers custom imaging solutions designed to fit your exact parameters. That means getting workstations, laptops, netbooks, and thin clients that are ready to deploy in the field. New or refreshed computers are made ready-to-go, complete with the same familiar applications and productivity tools you'd expect. This lets new employees ramp up quickly, while current employees achieve new levels of productivity.

When it comes to custom imaging & scripting, WEI strives to achieve a custom, "out of box" experience for all of its clients.

### **IN SUPPLYING YOUR COMPANY WITH CUSTOM IMAGING AND SCRIPTING, WEI:**

- Deploys custom operating system images on multiple device types
- Helps design your business' custom OS image on multiple device types
- Supplies device types including laptops, desktops, servers, and tablets sourced from all manufacturers and types
- Maintains your custom imaging solution
